Hi Cindy,

at PM we checked the E4 protocol and would ask you for some minor change which you will find attached.
We may also provide with fax copies of the particular pages to make it easier for you spotting the parts of interest. Would you please forward you fax#?
We may also discuss some of the issue via the phone.

Thank you very much for your help

Martin

Dear Cindy,

a short question: When do you expect the final E4 report being available?

Martin
